

Do you need a **Residential Personal Emergency Evacuation Plan?**

A residential personal emergency evacuation plan or **RPEEP** is an evacuation plan created for residents who may have difficulty evacuating a building independently due to mobility limitations, sensory impairments, medical conditions, injuries or other circumstances that affect their ability to safely evacuate their home during a fire emergency.

If you think you need an RPEEP for yourself or a member of your household, please contact our Building Safety Team for more information.

Call **020 3234 2287** or email
