### **Coppermill Heights – Ongoing Fox issues and advice from Fox-A-Gon**

Dear Residents,

Following our previous communication and the last residents' meeting, we wanted to provide you with an update on the steps we have taken to address the fox issue.

We have since appointed Fox-A-Gon to humanely remove the foxes from the building.

Fox-A-Gon will be on site from 20<sup>th</sup> August 2026 to start their preparations for the removal of the foxes. We have taken a snippet from the attached letter requesting residents' assistance to the following:

- Food waste is placed securely inside the appropriate bins and bin lids are kept closed.
- Pet food is not left outside overnight.
- Rubbish bags are not left beside bins where foxes can gain access to them.
- No resident is to deliberately feed, water or encourage foxes to approach the buildings or communal areas.

We would like to remind residents that these measures are particularly important while the current fox management works are being carried out.

Continued feeding by even a small number of people can compromise the management programme being undertaken. For the benefit of the wider development and the success of these measures, will depend on a joint effort between Newlon, Fox-A-Gon and the residents of Coppermill Heights.

We would therefore be grateful for everyone's cooperation and should you have any questions or concerns regarding the foxes, please do not hesitate to contact us at [SpecialProjects@newlon.org.uk](mailto:SpecialProjects@newlon.org.uk).

Kind regards,

Tyrone Taylor
